ORUM: So these outbreaks of violence among the Functionaries continue to increase, Kalik?

KALIK: The rumour has not been denied.

ORUM: But surely you know the truth? President Zarb is your brother.

KALIK: That does not make one part of his ... inner circle. Zarb puts his confidence in those who are old and weak-minded.

ORUM: You mean like Pletrac?

KALIK: That is why he is chairman of this tribunal. He has the advantage of age.

ORUM: He is also an expert on alien life-forms. They have always been his special study.

KALIK: Pletrac is soft on aliens. He is entirely unsuited for this tribunal. x

ORUM: You are opposed to admitting aliens.
